COMMUNITY HEALTH WORKER

May 18 – July 24, 2015: 10-Week classroom and internship program includes books.

Support the delivery of basic health and medical care in our community. A Community Health Worker complements clinically-trained health care teams comprised of physicians, physician assistants, and nurses, among others. CHWs carry out a broad range of responsibilities that facilitate access to health care services and that support patients achieve goals in their care plans.

COMMUNITY HEALTH WORKERS:

• Community Health Workers:
• Positively connect to the community
• Help others find access to health care and social services
• Manage cases and coordinating care
• Deliver home-based support services
• Coach and promote good health
• Bi-lingual speakers are encouraged to apply

EKG AND PHLEBOTOMY CERTIFICATION FOR CNAs

April 13-June 19, 2015: 10-Week classroom/clinical program includes books, uniforms and certification testing.

Industry Credentials = Better Job Prospects! Certified Nurse Aides (CNAs): Earn your EKG Technician and Phlebotomy Technician certifications which can increase your chances of full-time employment and a better hourly wage. ALL ABOUT ACE: NEW HAVEN

ACE: Accelerating Connections to Employment is a local partnership between Gateway Community College and Workforce Alliance and funded by the U.S. Department of Labor and the Annie E. Casey Foundation.

REQUIREMENTS: High school diploma or GED; reading and math assessments, income eligibility, background check, interview, and drug screenings (depending on the specific program). All applicants who fulfill the necessary eligibility requirements will be submitted for random selection for training spots, as dictated by ACE.

HOW IT WORKS: Half of those randomized will be offered spots in each class. Seats are offered at no cost to the student and include all texts, uniforms (if applicable) and certification testing fees.

NOT SELECTED? Those not selected for training will be referred to alternative resources through CTWorks and Gateway Community College. CTWorks is a partnership between Workforce Alliance and the CT Department of Labor.

ALL PROGRAMS INCLUDE:
- Unpaid clinicals/internships
- Industry-Recognized Credentials and Certifications
- Career Navigation workshops
- Job development services for up to a year after training
- Transportation subsidies, referrals to other supportive services including Care for Kids
