

Spring 2023 INTERNATIONAL DINNER SERIES

Welcome to our special International Dinner Series at Café Vincenzo. Students plan, prepare, and serve full-course international menus. Emphasis is on organization, showmanship, and supervision. Both oral and written reports based upon extensive research of the cuisine from the students' represented countries are required. The student manager for that dinner also explores the history, eating habits, and the socio-economic structure of their chosen country. Students design the menu, choose the recipes, and finally, have the opportunity to act as the manager for the dinner that week. Due to the short time span that we have to work with, we are unable to have a descriptive menu for each country, but rest assured, each dinner will be appropriately prepared and presented. Please trust in our talents, and in our culinary faculty, when selecting one or more of these remarkable dinners to attend.
